Education

Full Stack Web Development

Prepleaf By Masai (CAP)
January 2023-present

Bachelor Of Arts

Pandit Deendayal Upadhyaya
Shekhawati University, Sikar
January 2020 - April 2023

Technical Skills

- JavaScript
- MongoDB
- CSS3
- HTML5
- python

Soft Skills

- Time Management
- Teamwork
- Problem Solving
- Effective Communication

Certifications

Zoom Marathon Challenge

prepleaf by masai
It is organized by Prepleaf by Masai.

Nitesh Kumar

Full Stack Web Developer

Professional Summary

Visionary Full Stack Web Developer proficient in JavaScript and MERN stack, specializing in building scalable web applications. Expert in leveraging Generative AI and swiftly learning new technologies. Combines strong problem-solving and collaborative skills to deliver seamless front-end and back-end integration.

Projects

Sketchpy [Github Repo Link](#)

python

- Developed a Python-based application to convert uploaded pictures into sketches.
- Implemented efficient algorithms to process and render high-quality sketches from input images.
- Ensured the application supports various image formats for user convenience.
- Conducted extensive testing to optimize image processing performance and sketch quality.

Tutle [Github Repo Link](#)

python

- Created intricate designs and patterns using Python's Turtle module.
- Developed scripts to automate design generation, showcasing fundamental programming skills.
- Utilized procedural programming concepts to implement design functionality.
- Enhanced problem-solving and debugging skills through iterative development.
- Gained a foundational understanding of Python and graphical programming.
