## Education

### Career Accelerator Program

Prepleaf by Masai, Bengaluru  
Jan 2023 - present

### Bachelor of Arts

Pandit Deendayal Upadhyaya  
Shekhawati University, Sikar  
July 2020 - August 2023

## Technical Skills

Python

Data Structures: Stack, Queue,  
Linked List

Basic Sorting Algorithms

Recursion

Complexity Analysis

## Soft Skills

Time management

Teamwork

Creativity

Problem-solving

# Nitesh Kumar

## Algorithm Developer Intern

## Professional Summary

Results-driven DSA intern with a robust foundation in Python, proficiently navigating data structures like stack, queue, and linked list. Proven problem solver, adept at implementing basic sorting algorithms and employing recursion. Known for swift adaptation, ensuring seamless integration into dynamic technical environments.

## Projects

### Create sketch using sketchpy and turtle

[Github Repo](#)  
[Link](#)

- Developed a solo project in 5 days using Python, SketchPy, and Turtle libraries.
- Created captivating sketches based on given images, utilizing inbuilt Python libraries.
- Implemented responsiveness and simple animations/images to enhance user experience.

### Using API to fetch the weather of the city

[Github Repo](#)  
[Link](#)

- Independently built a project in 5 days using Python and API.
- Users can input a city name to fetch detailed weather information.
- Utilized Python's request module and obtained API keys from OpenWeather website.
